GRS-7044-2007E

# THERMONIX GREASE

# **High-Temperature Grease**

**THERMONIX GREASE** is made from a clay thickener (Bentonite) and highly refined mineral base oils, which possesses outstanding mechanical stability and resistance to heat and water.

## Special Features

#### 1. Excellent heat resistance

**THERMONIX GREASE** is used for the lubrication of various machines that are exposed to high temperature such as dryer blowers. However, under the high temperatures more than 180°C, it is necessary to push old grease and to supply new grease regularly.

#### 2. Good water resistance and pressure resistance

### 3. Usage in a wide temperature range

**THERMONIX GREASE** can be used in a very wide temperature range, from -20°C to 200°C, and has the outstanding lubricity also at low temperature and high temperature.

## Applications

**THERMONIX GREASE** can be used on lubrication points of various machines that are exposed to high temperature.

#### Containers

16-kg pail can, 2.5-kg can  $\times$  6

## Typical Properties of THERMONIX GREASE

Grade			1	2	
Thickener				Bentonite	Bentonite
Appearance				Light brown,	Light brown,
				Buttery	Buttery
Base oil	Type			Mineral oil	Mineral oil
	Kinematic viscosity	(100°C)	$mm^2/s$	20.6	20.6
Penetration		$(25^{\circ}\text{C}, 60\text{W})$		325	280
Worked stability		(25°C, 100,000W)		344	311
Dropping point			°C	None	None
Oil separation		$(100^{\circ}\text{C}, 24 \text{ h})$	mass%	3.0	2.0
Evaporation loss		(99°C, 22 h)	mass%	0.56	0.53
Oxidation stability		(99°C, 100 h)	kPa	34	34
Water washout		(38°C, 1 h)	mass%	0.2	0.1
Copper strip corrosion		(100°C, 24 h)		No change	No change
Approx. operating temperature range			$^{\circ}\mathrm{C}$	-20 to 200	20 to 200

Note: The typical properties may be changed without notice. (November 2011)

# Handling **Precautions**

# **▼** Follow these precautions when handling this product.

Composition:	Base Oil, Thickener, Additives			
Hazard category:	Not applicable			
Precautionary Statements:	• Do not handle until all safety precautions have been read and understood.			
Prevention	• Wear protective gloves/protective clothing/eye protection/face protection.			
	• Do not allow the eyes to become exposed to the product. Do not swallow the product.			
	Wash hands thoroughly after handling.			
	• Do not eat, drink or smoke when using this product.			
Response	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.			
	• IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.			
	• If the eyes are exposed to the product: Rinse the eyes with plenty of running water and			
	immediately contact a physician.			
	• IF ON SKIN: Wash with plenty of soap and water.			
Storage	• The product must be stored in a cool, well-ventilated location where it will not be exposed			
	to direct sunlight.			
	Containers that have been opened must be tightly sealed.			
Disposal	Dispose of contents/container in accordance with local/regional/national/international			
	regulations.			
	• If there are any doubts about proper methods of handling the product, contact the point of			
	purchase before proceeding with usage.
